Get Found on Apple Maps

A Quick-Start Guide to Claiming Your Apple Business Connect Place Card & Dropping a Pin

Published: November 2026 **Version:** 1.0 (Print Handout Edition) **Guide:** Local Business Visibility

Every day, millions of residents, visitors, and drivers rely on **Apple Maps, Siri, and Apple CarPlay** to navigate to local shops, restaurants, and offices. Claiming your free **Apple Business Connect** Place Card ensures iPhone and iPad users see accurate directions, hours, and photos instead of outdated or missing info.

STEP-BY-STEP: CLAIM & VERIFY YOUR PLACE CARD

1. Sign In & Search on Apple Business Connect

SETUP

Visit **businessconnect.apple.com** from any browser and sign in with your business Apple Account (Apple ID). Search for your business name and location. If your storefront appears, select **"Claim this Place."** If it is unlisted, select **"Add a new location"** to build your Place Card from scratch.

2. No Street Address? Drop a Pin Directly on Your Entrance

Caribbean Pro-Tip

Across St. Kitts & Nevis and the wider Caribbean, many commercial buildings operate without numbered street addresses. During setup—or anytime under **Location Details**—switch to satellite view and **drag the Apple Maps pin** directly onto your exact front door or parking entrance so Siri and CarPlay guide customers right to you.

3. Complete Business Verification

SECURITY

Apple verifies ownership to protect your Place Card from unauthorized edits. Complete verification by receiving an automated **phone verification code** on your registered business line or uploading an official document (such as a business registration certificate or utility bill) showing your business name and location.

4. KEEP YOUR APPLE PLACE CARD UP TO DATE

Place Card Section	What to Update & Why It Matters
Location & Pin	Adjust your map pin and entrance marker immediately if you relocate or expand.
Business Hours	Keep regular hours and holiday closures current so Apple Maps shows "Open Now" accurately.
Phone & Website	Add your direct phone number and website link for one-tap calling from iPhone search results.
Cover & Store Photos	Upload high-resolution exterior and product photos to build trust on your Apple Place Card.

Claim Your Free 15-Minute Apple & Google Maps Setup Check
